

# Asahi Glass Fluoropolymers Ltd

## ETFE Plant

### ***KHI Role:***

To provide the Front End Engineering Study (FEED) by Asahi Glass Fluoropolymers for a new polymer plant to be built on the ex-ICI Hillhouse site at Thornton Cleveleys, Lancashire. Following the completion of the FEED and after a competitive tendering process, KHI was awarded the detail design, procurement and construction management contract. The plant is now producing fluorinated resin ETFE.

### ***Key Features:***

- First ETFE plant for Asahi Glass Fluoropolymers in the UK
- Brownfield site, ex ICI, Hillhouse, Thornton Cleveleys

### ***Scope of Work:***

- Front End Engineering Package (FEED)
- Multi-discipline engineering design, procurement support and project management (EPCM)
- Construction management including CDM regulations compliance.
